Figure 1: Interaction for year, when you click year the map and gender bar chart updates.
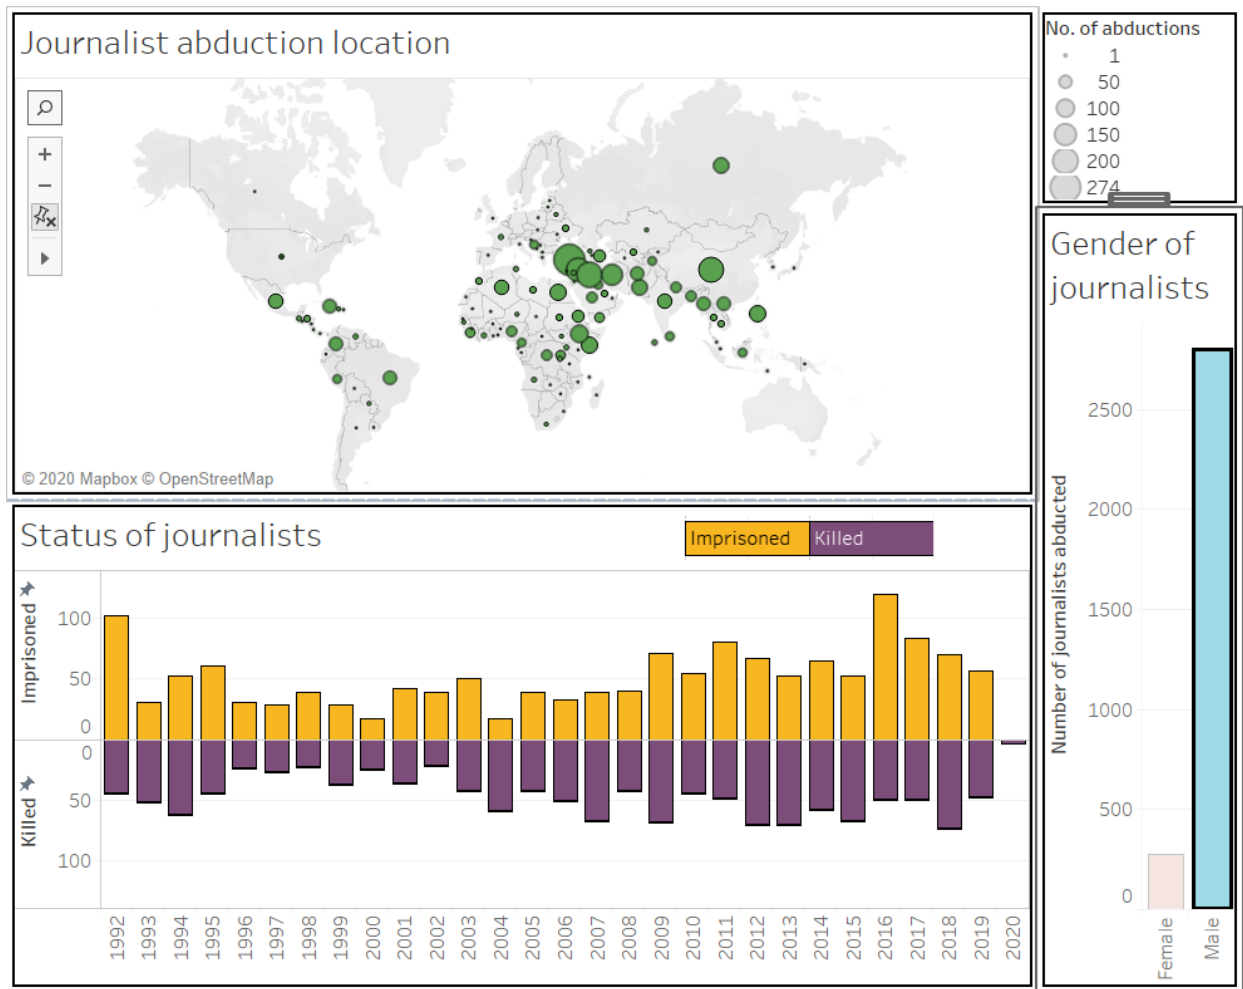

Figure 2: Interaction by gender. When you click a gender the bar chart for status of abducted journalists updates as well as the map.
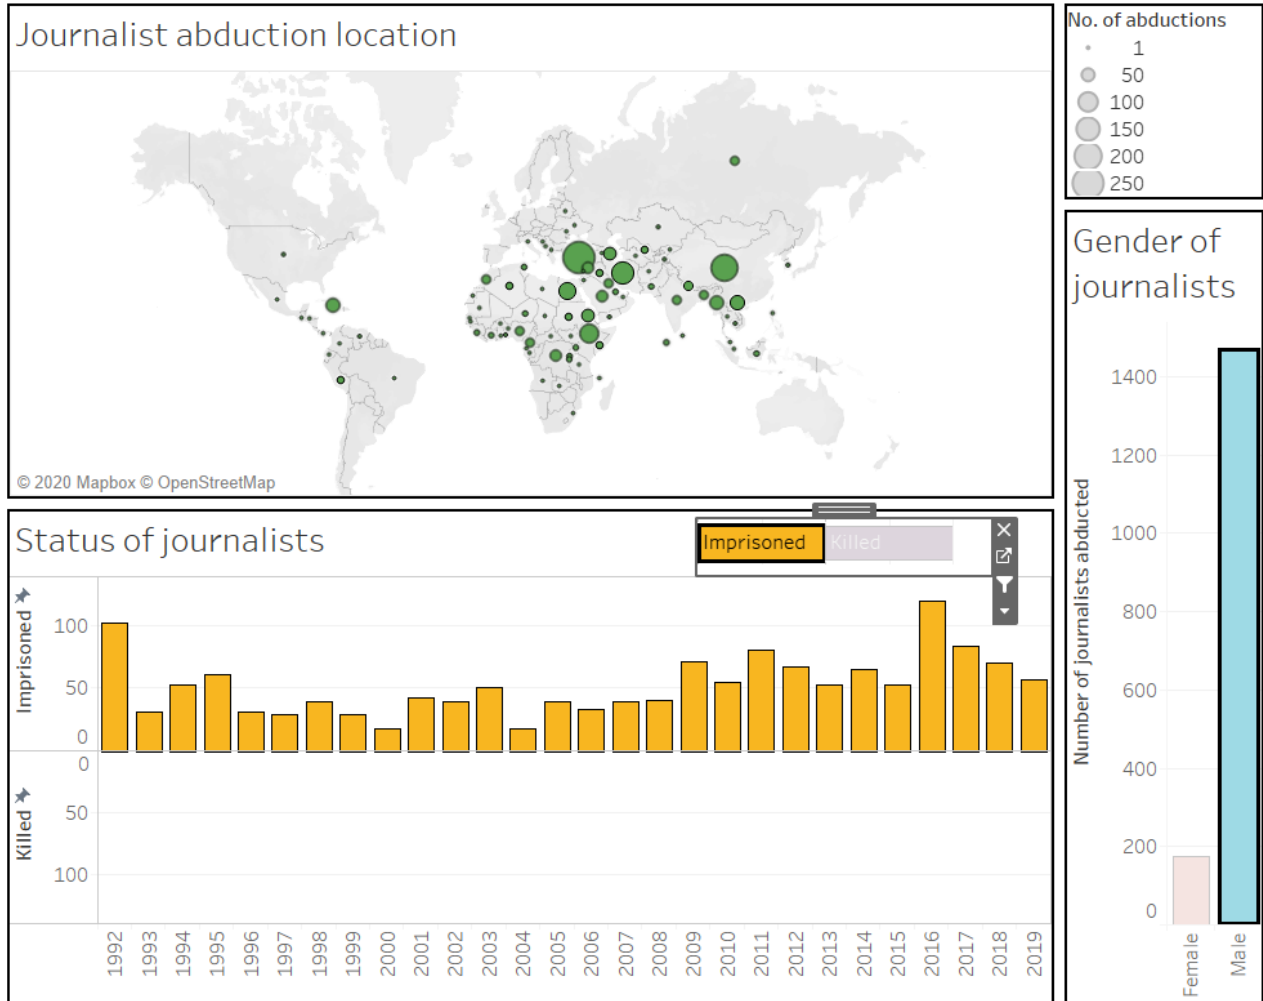

Figure 3: Interaction by status of abducted journalists. Bar charts and map updates with statistics for journalists that have been imprisoned.
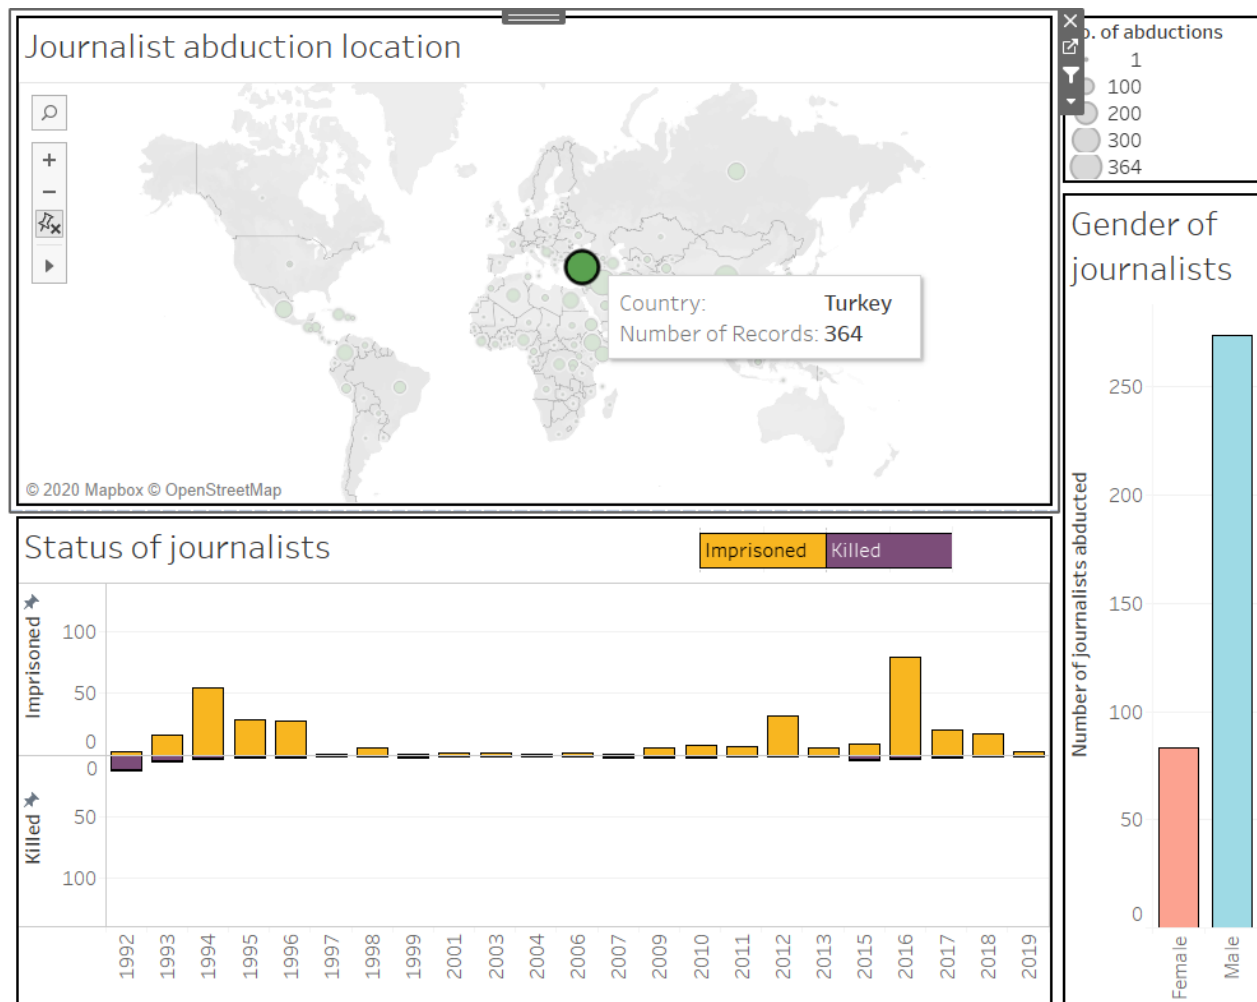

Figure 4: Interaction by country. By hovering over a country we get the country name and number of cases for that country. The two bar charts also update with information for the selected country.
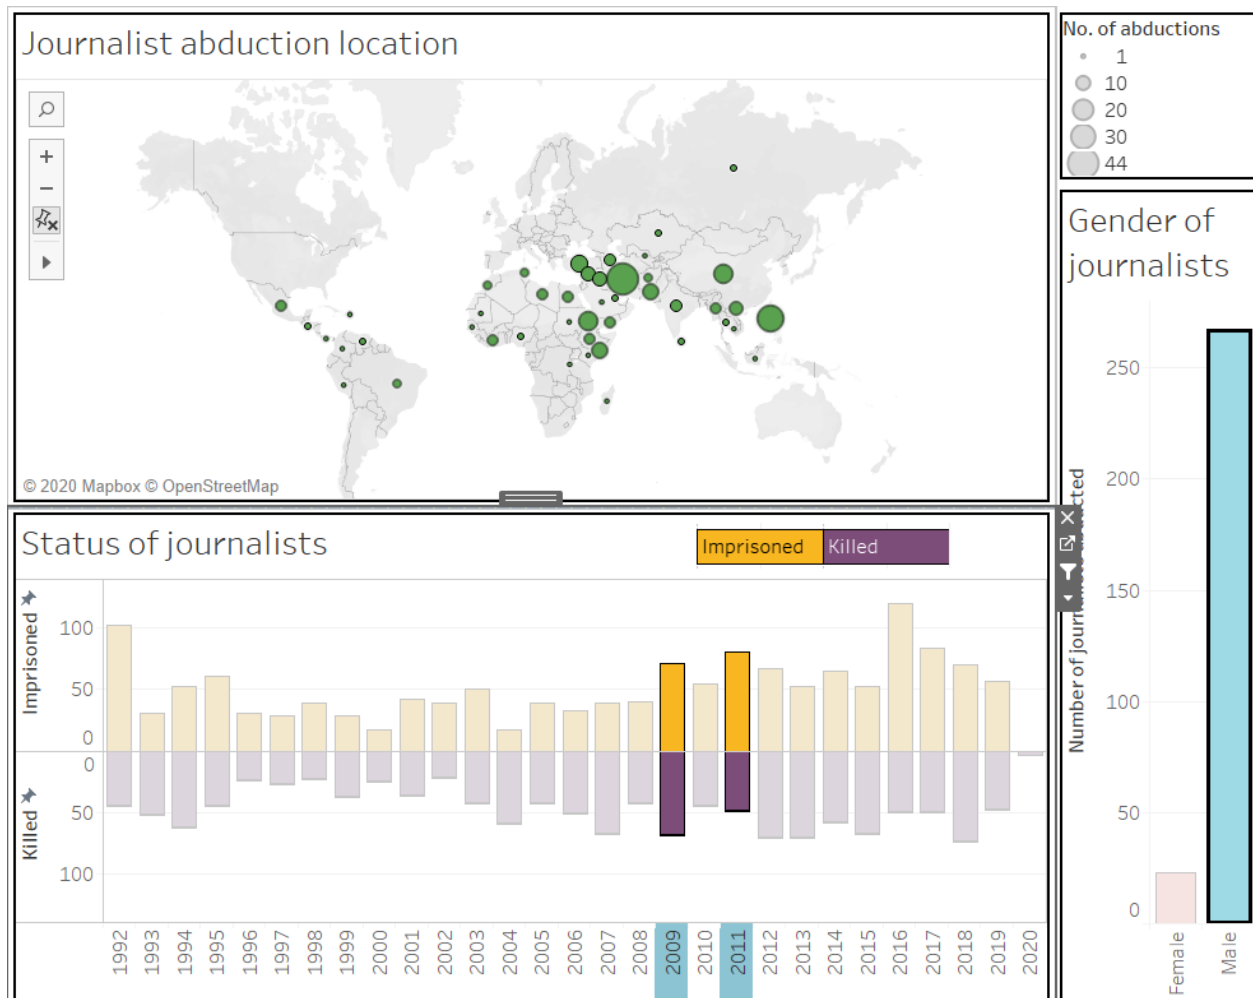

Figure 5: Multiple interactions example. In this example we select male cases for years 2009 and 2011. The map will then update for male cases in 2009 and 2011.
